

Keep kids learning at home!

Monday

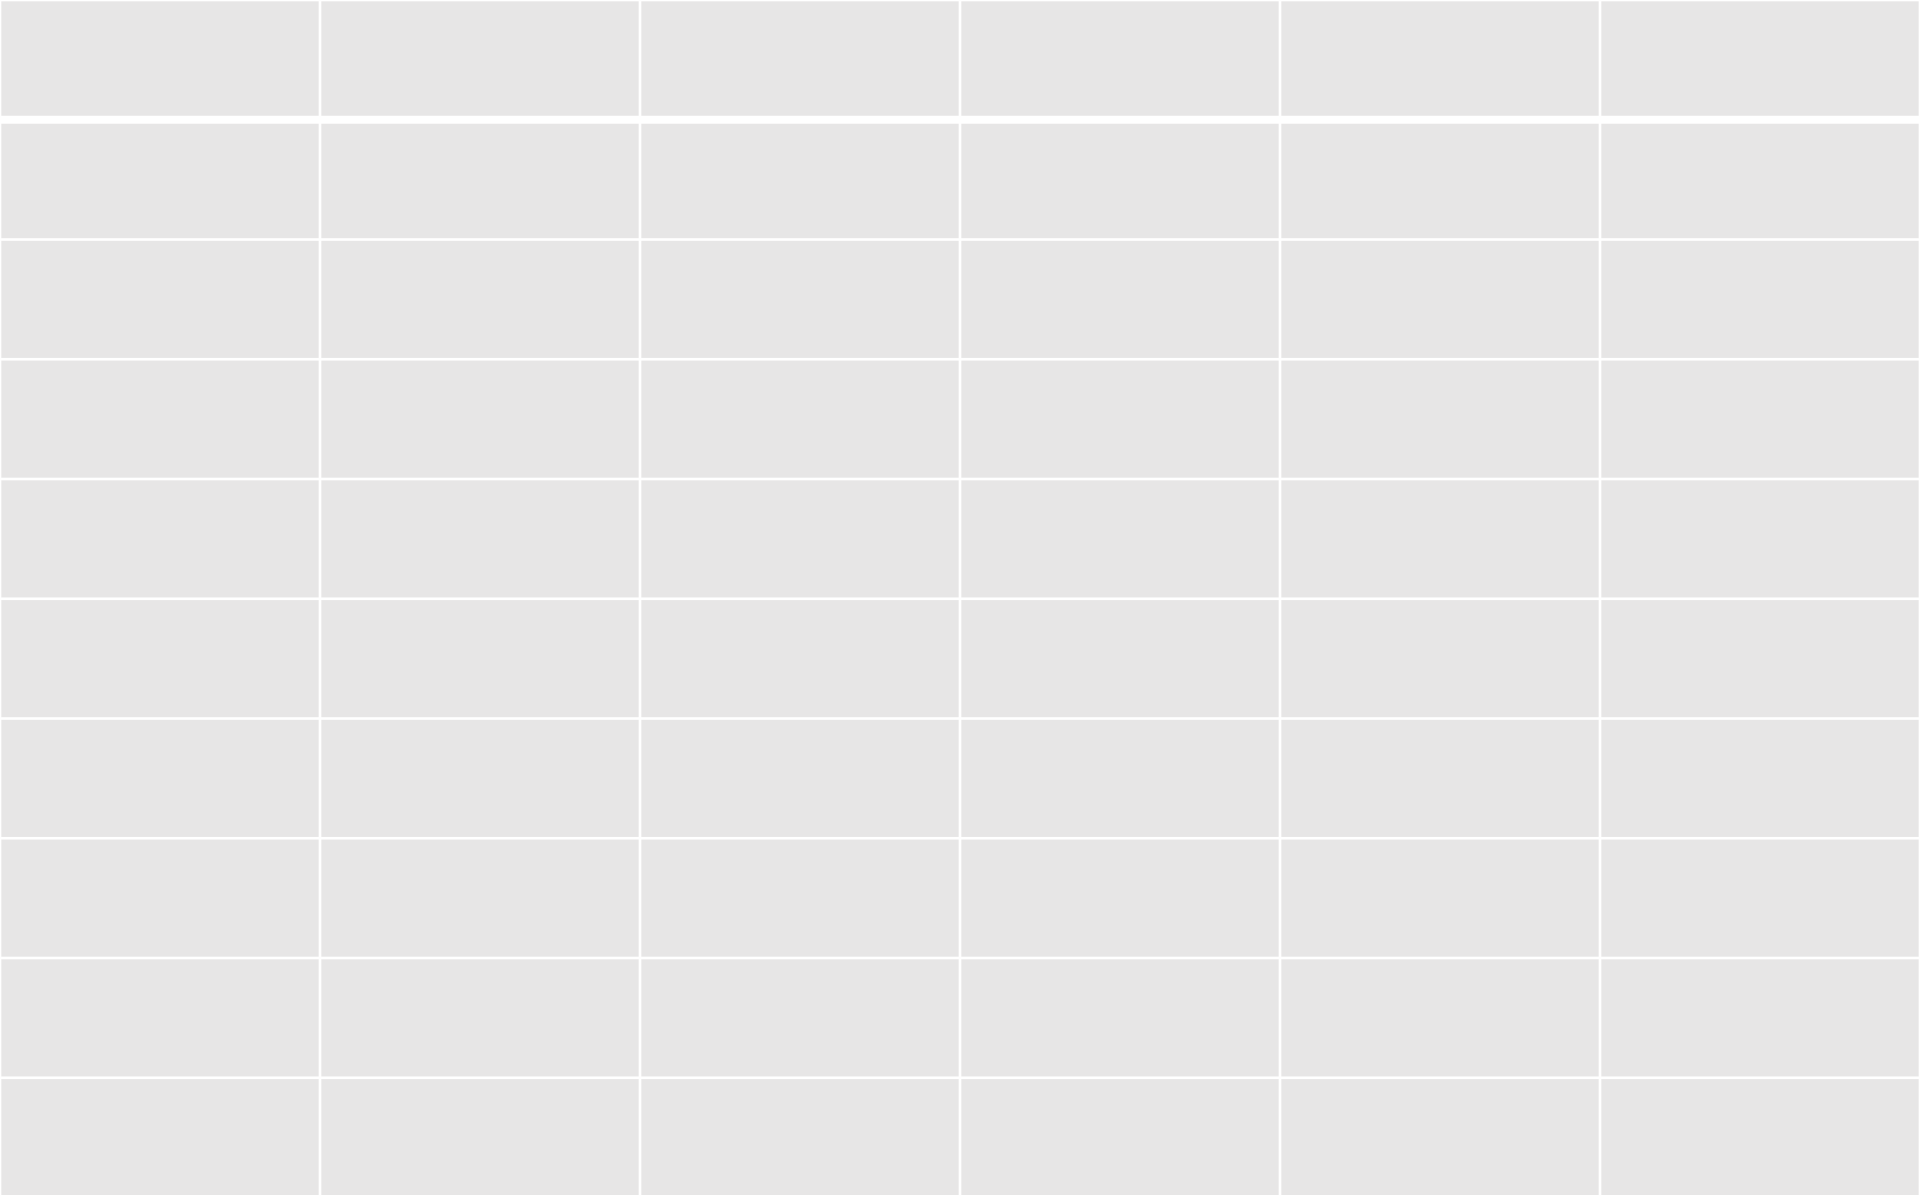

Tuesday

Wednesday

Thursday

Friday

literacy	Spell name with dough. Try to make your last name and other family members and friends names.	Make as many words as you can in the -at word family. Can you change the ending sound to make more words?	Sort the letters that have curved lines and straight lines. Do you have straight or curved letters in your name?	What words can you make using dough? Find words in books or on boxes that you can make.	Fine motor Friday! Roll the dough to make snakes! Pinch off pieces to grow your grasping skills!
math	Sort family counters or buttons by size and color.	Play Roll A Number. Roll the die (or dice) and record the number on the recording sheet. (See next 3 pages)	Use the geometric shapes and sort them by color, then sort them by shape.	Roll the dice and build that number with counters. Try to get all numbers between 1-10 (or 11-20).	Use playing cards and play War. Each person flips a card over and the person with more keeps both cards.
science	Plant a seed in a clear cup and draw in your notebook to show how it looks. Don't forget to water it!	Observe something outside with a magnifying glass. Draw it in your notebook. Label it and color it in.	Make a t-chart and compare 2 things you see outside. How are they alike and different?	Find a bug or insect outside and observe it up close with a magnifying glass. Draw a picture of it in your notebook and label it.	Check on your seed. Measure how many counters tall it is and draw what it looks like in your notebook.
social studies	Mail a letter to a friend who you miss seeing!	Pick 2 animals and learn about where they live. Why do you think they are able to live where they do?	Take a walk through your neighborhood (at a safe distance) and wave to anyone you see!	Decorate your driveway or sidewalk with chalk and happy messages for other people!	Make a card to send to a person who is a doctor, nurse, EMT, police officer, firefighter, or other frontline worker!
